

## 16-19 Tuition Fund

### Overview

In 2020-2021 Shire Oak Academy has received £2000 as part of the 16-19 tuition fund. The 16-19 tuition fund is clearly identifiable within the academy budget and the impact of interventions is monitored. The 16-19 tuition fund is being used to support students in resit examinations in maths and English to obtain at least a grade 4.

### Objective

For students who are eligible to pass English or maths at GCSE grade 4 or above in resit examinations in 2020-2021.

Ensure that students make the rapid progress necessary to bridge the gap to their peers.

### Strategies

- 1-1 sessions with qualified teachers focusing on examination technique. Disadvantaged students have been prioritised.
- Additional resources have been printed for students to work through independently. The resources are specifically aimed at areas of focus to students and link in with other work that has been set in resit lessons.

### Intended impact

All students eligible will achieve a grade 4 in English or maths.
